

## Barrel Clamp

Barrel Clamps - Referred to as "Barrel Clamp", this hydraulic accessory is utilized on lift trucks to squeeze items that you need to transfer using the forklift. Normally, they're utilized to barrels, handle kegs, and paper rolls, together with a few barrel clamp designs having the ability to rotate the load. Like for instance, the revolving function permits a forklift operator to be able to slot in a vertically stored paper inside the horizontal intake of a printing press.
