

Rockwell Part

Rockwell Part - AxleTech International is a premier dealer in the world of specialty vehicle drive-train systems and parts together with off highway vehicles. The company prides itself on being its clients' chosen supplier. AxleTech strives to exceed and meet their clients' expectations for technology, delivery, quality and service. They believe in working in an environment which supports the highest integrity with empowered teamwork, combined with a persistent pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They place great importance on being an environmentally conscious business and offering a safe environment for their employees to work in. In addition, they have implemented several programs within the corporation in order to help articulate these values in their business policy. AxleTech happily shares this policy and welcomes interested parties to offer them with any questions or comments, since they are happy to promote and share this policy with a greater understanding of their efforts. They are extremely devoted to improving and preserving the environment. AxleTech has an EHS program which not just protects the natural environment but which also actively protects their staff and neighbors as well.

AxleTech prides themselves as being a ground-breaking drive-train solutions provider. They specialize in manufacturing and designing planetary axles for both military and commercial applications. These applications vary from construction equipment to airport ground support. AxleTech specifically designs axles to be able to meet particular application demands. They have over 1000 different axle specs within their present offering. With over one hundred years of history and knowledge, AxleTech proudly supplies the most complete solution for any of your axle requirements. The business is well known in many military and commercial applications. They provide complete axle assemblies for aftermarket replacement needs, together with servicing axle requirements for OE production. Their high mobility ISAS have further details that could be found in the "ISAS" product selection.
